4017 Led Knight Rider Circuit

4017 LED Knight Rider Running Light Circuit Diagram. In this 4017 Knight Rider circuit, the 555 is wired as an oscillator. It can be adjusted to give the desired speed for the display. The output of the 555 is directly connected to the input of a Johnson Counter (CD 4017). PARTS LIST.

LED chaser circuit using IC 4017 and 555

An LED chaser or LED running light can be used as a decorative light, fancy light, chasing taillight for vehicles, etc. The circuit consists of a 555 astable multivibrator circuit and a 4017 counter using IC. The output of the 555 generates a square wave or clock input for the decade counter.
