American Heart Association

The only textbook approved for use by NAEMT's Advanced Medical Life Support course, this guide provides comprehensive, evidence-based coverage of basic and advanced concepts with an emphasis on critical thinking, leading to better outcomes for patients. Submit your application to become a Course Site today.

Instructor CD contents include: Precourse materials -- Course materials -- Evaluation materials -- Resources.

As the required textbook for NAEMTUS worldwide prehospital trauma life support courses, this is the definitive resource for learning basic and advanced prehospital trauma skills and concepts. Now revised and expanded to cover all aspects of military prehospital trauma with 12 new chapters, this edition is tailored expressly for the military.

Product 15-2805

1 copy of the Basic Life Support (BLS) For Healthcare Providers Instructor Manual (90-1036), 1 Basic Life Support (BLS) For Healthcare Providers Course And Renewal Course DVD (90-1035), 1 copy of the Basic Life Support (BLS) For Healthcare Providers Student Manual (90-1038), and 1 American Heart Association Stopwatch (90-1509).

Medical acronyms and abbreviations offer convenience, but those countless shortcuts can often be confusing. Now a part of the popular Dorland's suite of products, this reference features thousands of terms from across various medical specialties. Its alphabetical arrangement makes for quick reference, and expanded coverage of symbols ensures they are easier to find. Effective communication plays an important role in all medical settings, so turn to this trusted volume for nearly any medical abbreviation you might encounter. Symbols section makes it easier to locate unusual or seldom-used symbols. Convenient alphabetical format allows you to find the entry you need more intuitively. More than 90,000 entries and definitions. Many new and updated entries including terminology in expanding specialties, such as Nursing; Physical, Occupational, and Speech Therapies; Transcription and Coding; Computer and Technical Fields. New section on abbreviations to avoid, including Joint Commission

abbreviations that are not to be used. Incorporates updates suggested by the Institute for Safe Medication Practices (ISMP).

Incorporating the most important advances in the fast-growing field of cancer biology, the text maintains all of its hallmark features. It is admired by students, instructors, researchers, and clinicians around the world for its clear writing, extensive full-color art program, and numerous pedagogical features.

Product 80-1535TR

This book focuses on endovascular methods for resuscitation and trauma management. Written by highly qualified and clinically active physicians from around the world, it shares information gathered over the past decade, providing a comprehensive database of clinical knowledge for a wide range of practicing clinicians and researchers. Moreover, it describes basic methods for vascular access, methods for REBOA (Resuscitative Endovascular Balloon Occlusion of the Aorta), endo-grafts and embolization methods, as well as other, more advanced methods for endovascular and hybrid resuscitation (CPR REBOA, ECHMO etc.) from the pre-hospital to the post-surgical phase. As the body of literature in this field has grown considerably over the past five years, the book also focuses on summarizing what is known, what the clinical and research evidence is, and "how to actually use" the various methods. It will help readers understand basic and advanced modern techniques for bleeding control and modern resuscitation, and how to apply them in clinical practice.
