gardens to find out what bits of rubbish are buried there'. What starts out as a small hole grows into a full-scale excavation involving mechanical diggers, and reveals the remains of a Roman villa under a proposed supermarket. In amongst this story, the authors answer many of the frequently asked questions about archaeology and archaeologists, about the history of the discipline and about how a dig works. Robinson and Aston are entertaining and amusing as always.

Sir Tony Robinson is a much-loved actor, presenter and author with a stellar career lasting over fifty years. In this autobiography he reveals how the boy from South Woodford went from child stardom in the first stage production of *Oliver!*, a pint-sized pickpocket desperately bleaching his incipient moustache, to comedy icon Baldrick, the loyal servant and turnip aficionado in *Blackadder*. It wasn't all plain sailing though. Along the way he was bullied by Steve Marriott, failed to impress Liza Minnelli and was pushed into a stinking London dock by John Wayne. He also entertained us with *Maid Marion* and *Her Merry Men* (which he wrote and starred in) and coped manfully when locked naked outside a theatre in Lincoln during the live tour of comedy series *Who Dares Wins*. He presented *Time Team* for twenty years, watching countless gardens ruthlessly dug up in the name of archaeology, and risked life and limb filming *The Worst Jobs in History*. Packed full of incident and insight, *No Cunning Plan* is a funny, self-deprecating and always entertaining read.

An investigation into the geography, history, composition, mythology, demographics, and misperception of garbage discusses what human waste says about human beings' politics, economics, population, size, age, sex, and more. National ad/promo.

Exploration of the life and philosophical reflections of this complex Stoic philosopher and Roman emperor.

Peter Drewett's comprehensive survey explores every stage of the dig process, from the core work of discovery and excavation to the final product: the published archaeological report. Main topics covered are: how an archaeological site is formed finding and recording archaeological sites planning excavations, digging the site and recording the results post-fieldwork planning, processing and finds analysis interpreting the evidence publishing the report. Illustrated with 100 photographs and line drawings, and using numerous case studies, *Field Archaeology* is the essential introductory guide for archaeology students, and is certain to be welcomed by the growing number of enthusiasts for the subject.
