Three teenage girls share their stories about life as students, as young women with disabilities, and as minorities in a male-dominated special education school culture.

Endorsed by WJEC and written by experienced examiners David Burtenshaw and Sue Warn, this WJEC A2 Geography Student Unit Guide is the essential study companion for Unit G4: Sustainability. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index exam advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, Steak is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

So you want to learn the ins and outs of creating dance music and looking to improve your production? Then this book is just for you. No matter what genre you are interested in- trance, techno, garage, chill out, house or what tool you are working with- Abelton, Reason, Reaktor or Absynth, Snowman covers every aspect of dance music production- from sound design, compression and effects to mixing and mastering to help you improve your music. No matter what you level of experience the Dance Music Manual is packed with sound advice, techniques and practical tips to help you achieve professional results. The CD provides demo tracks showing what can be achieved when applying the advice contained in the book, including examples of the quality difference before and after mixing and mastering. The CD also contains free software demos for you to download. For even more advice and resources, check out the book's official website www.dancemusicproduction.com

Can drinking coffee help people live longer? What makes a stock ' s price go up? Why did you get the flu? Causal questions like these arise on a regular basis, but most people likely have not thought deeply about how to answer them. This book helps you think about causality in a structured way: What is a cause. what are causes good for. and what is compelling evidence of causality? Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes. You ' ll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it ' s figuring out what data you need, or understanding that the way you collect and prepare data affects the conclusions you can draw from it, Why will help you sharpen your causal inference skills.
