This workbook is a comprehensive collection
of solved exercises and problems typical to
AP, introductory, and general chemistry
courses, as well as blank worksheets
containing further practice problems and
questions. It contains a total of 197
learning objectives, grouped in 28 lessons,
and covering the vast majority of the types
of problems that a student will encounter in
a typical one-year chemistry course. It also
contains a fully solved, 50-question practice
test, which gives students a good idea of
what they might expect on an actual final
exam covering the entire material.
