I have been looking for information regarding where I may connect a USBASP board to flash a new bootloader on a GT2560 v4.0 motherboard. This wiring diagram has not helped in this regard. I have seen references to connections at the LCD or by putting an SD card in the slot on the LCD board on other 2560 boards.

The Vault-Tec control board is a miscellaneous item in the Fallout 4 add-on Vault-Tec Workshop. Characteristics Edit. Identical in appearance to a military-grade circuit board, the Vault-Tec control board is required to repair the workshops in Vault 88 so they can be restored to functionality again. There is one for each of the workshops in the vault's different sections, and each workshop must be restored to functionality before it can be used for its particular section.
