Gender, Theories of Traditionally gender has been used primarily as a grammatical term. Gender aspects constitute a subclass within a grammatical class (noun, pronoun, adjective, or verb) of a language that is partly arbitrary but also partly based on distinguishable characteristics (shape, social rank, manner of existence, or sex) and that determines agreement with and selection of other words ...

2009 RUSA Outstanding Reference CHOICE Outstanding Academic Title for 2009 "Given both the interdisciplinarity of the field of gender scholarship and the immense significance of gender to both individuals and societies, it is probably impossible to produce such a compendium. The editor, advisory team, and contributors are to be credited for tackling a project of such immense scope...O'Brien's commitment to the possibility of a more-informed discourse on the highly complex and nuanced topic of gender and society promises to benefit a broad readership...Highly recommended for academic libraries of all sizes and for large public libraries." □Booklist STARRED Review "All topics in this wide-ranging resource are addressed in an unbiased and unprejudiced manner, and facts are stated clearly and coherently. The coverage of changing topics is kept current. A valuable addition to any library." □Library Journal For decades, scholars of gender have been documenting and analyzing the various ways in which gender shapes individual lives, cultural beliefs and practices, and social and economic organization. Including contributions by experts in the field, the Encyclopedia of Gender and Society covers the major theories, research, people, and issues in contemporary gender studies. This comprehensive, two-volume encyclopedia is distinguished by a cross-national/cross-cultural perspective that provides comparative analyses of the life experiences of men and women around the world. Key Features: · Provides users with a "gender lens" on society by focusing on significant gender scholarship within commonly recognized areas of social research · Offers "framing" essays that summarize commonly used concepts and directions of research and provide an overview of each area (e.g., Media and Gender Socialization; Religion, Gender Roles in; Sexuality and Reproduction; Women's Social Movements, History of) · Examines basic aspects of social life from the most individual (self and identity) to the most global (transnational economics and politics). · Contains new information on well-known subjects, including surprising facts that may counter common assumptions and research in areas of study where the impact of gender has been traditionally overlooked · Reflects cutting-edge discussion and scholarship on current issues and debates regarding gender and society

This is a comprehensive two-volume encyclopedia covering the major theories, research, people and issues in contemporary gender studies. The work will be distinguished by a cross-national/cross-cultural perspective providing comparative analyses of life experiences of men and women.

The Encyclopedia of Gender in Media critically examines the role of the media in enabling, facilitating, or challenging the social construction of gender in our society.

Provides a detailed subject index at the end of volume 2.

The SAGE Encyclopedia of Psychology and Gender is an innovative exploration of the intersection of gender and psychology—topics that resonate across disciplines and inform our everyday lives. This encyclopedia looks at issues of gender, identity, and psychological processes at the individual as well as the societal level, exploring topics such as how gender intersects with developmental processes both in infancy and childhood and throughout later life stages; the evolution of feminism and the men's movement; the ways in which gender can affect psychological outcomes and influence behavior; and more. With articles written by experts across a variety of disciplines, this encyclopedia delivers insights on the psychology of gender through the lens of developmental science, social science, clinical and counseling psychology, sociology, and more. This encyclopedia will provide librarians, students, and professionals with ready access to up-to-date information that informs some of today's key contemporary issues and debates. These are the sorts of questions we plan for this encyclopedia to address: What is gender nonconformity? What are some of the evolutionary sex differences between men and women? How does gender-based workplace harassment affect health outcomes? How are gender roles viewed in different cultures? What is third-wave feminism?

"This two volume set includes 213 entries with over 4,700 references to additional works on gender and information technology"--Provided by publisher.

From women's medicine and the writings of Christine de Pizan to the lives of market and tradeswomen and the idealization of virginity, gender and social status dictated all aspects of women's lives during the middle ages. A cross-disciplinary resource, *Women and Gender in Medieval Europe* examines the daily reality of medieval women from all walks of life in Europe between 450 CE and 1500 CE, i.e., from the fall of the Roman Empire to the discovery of the Americas. Moving beyond biographies of famous noble women of the middle ages, the scope of this important reference work is vast and provides a comprehensive understanding of medieval women's lives and experiences. Masculinity in the middle ages is also addressed to provide important context for understanding women's roles. Entries that range from 250 words to 4,500 words in length thoroughly explore topics in the following areas: · Art and Architecture · Countries, Realms, and Regions · Daily Life · Documentary Sources · Economics · Education

and Learning · Gender and Sexuality · Historiography · Law · Literature · Medicine and Science · Music and Dance · Persons · Philosophy · Politics · Political Figures · Religion and Theology · Religious Figures · Social Organization and Status Written by renowned international scholars, *Women and Gender in Medieval Europe* is the latest in the Routledge Encyclopedias of the Middle Ages. Easily accessible in an A-to-Z format, students, researchers, and scholars will find this outstanding reference work to be an invaluable resource on women in Medieval Europe.

Economics is the nexus and engine that runs society, affecting societal well-being, raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly. Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world. From a household budget to international trade, economics ranges from the micro- to the macro-level. It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia, which will explicitly approach economics through varied disciplinary lenses. Although there are encyclopedias of covering economics (especially classic economic theory and history), the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world, contemporary issues, and society. Features: 4 volumes with approximately 800 signed articles ranging from 1,000 to 5,000 words each are presented in a choice of print or electronic editions Organized A-to-Z with a thematic Reader's Guide in the front matter groups related entries Articles conclude with References & Future Readings to guide students to the next step on their research journeys Cross-references between and among articles combine with a thorough Index and the Reader's Guide to enhance search-and-browse in the electronic version Pedagogical elements include a Chronology of Economics and Society, Resource Guide, and Glossary This academic, multi-author reference work will serve as a general, non-technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens.

Provides more than seven hundred alphabetical entries covering the interaction of law and society around the globe, including the sociology of law, law and economics, law and political science, psychology and law, and criminology.

The five volumes of this ultimate resource recognize the inherent unity between business ethics and business and society, that stems from their shared primary concern with value in commerce. This Encyclopedia spans the relationships among business, ethics, and society by including more than 800 entries that feature broad coverage of corporate social responsibility, the obligation of companies to various stakeholder groups, the contribution of business to society and culture, and the relationship between organizations and the quality of the environment.
