~~Lexical Priming A New Theory~~

Lexical Priming proposes a radical new theory of the lexicon, which amounts to a completely new theory of language based on how words are used in the real world. Here they are not confined to the definitions given to them in dictionaries but instead interact with other words in common patterns of use.

~~Lexical Priming: A New Theory of Words and Language~~

Lexical Priming proposes a radical new theory of the lexicon, which amounts to a completely new theory of language based on how words are used in the real world. Here they are not confined to the definitions given to them in dictionaries but instead interact with other words in common patterns of use. Using concrete statistical evidence from a corpus of newspaper English, but also referring to travel writing and literary text, the author argues that words are 'primed' for use through our ...

~~Lexical Priming: A New Theory of Words and Language – 1st~~

Lexical Priming: A new theory of words and language sets out to outline a new theory of language based on co-occurrence patterns that are stored in the individual's mind, before contact with others leads to the development of shared language expectations. These expectations, or primings, are shown to be the factors underlying acquisition and use of language, as well as in creativity and language change.

~~Lexical Priming: A New Theory of Words and Language Hoey~~

The theory of lexical priming, put forward by Michael Hoey (2005), suggests that language users store the words in the context in which they have encountered them. Hoey argues that as a result of these multiple encounters we are primed to replicate these contexts in subsequent encounters, whether we read, listen, write or speak.

~~Lexicon: One word leads to ... or you've been primed!~~

Lexical priming by Professor Michael Hoey, Baines Professor of English Language, University of Liverpool □ Grammar and vocabulary - the traditional view of language □ A new view of language □ A case study: 'the time has come' □ What it means to 'know' a word. If you are an advanced learner of English, you have a great deal to be ...

~~Language Awareness: Lexical priming~~

Priming is a phenomenon whereby exposure to one stimulus influences a response to a subsequent stimulus, without conscious guidance or intention. For example, the word NURSE is recognized more quickly following the word DOCTOR than following the word BREAD.Priming can be perceptual, associative, repetitive, positive, negative, affective, semantic, or conceptual.

~~Priming (psychology) – Wikipedia~~

Published in 2005, Michael Hoey's Lexical Priming – A new theory of words and language introduced a completely new theory of language based on how words are used in the real world. In the ten years that have passed, the theory has since gained traction in the field of corpus-linguistics. This volume brings together some of the most important contributions to the theory, in areas such as language teaching and learning, discourse analysis, stylistics as well as the design of language ...
