Magic in theory : an introduction to the theoretical and ...

Rather, it's a layman's introduction to how magicians think about their art and a few of the psychological principles of misdirection. Little attention is paid to the actual psychological literature, and the discussions of magic theory will be old news to anyone who has given the art even a cursory study.

Amazon.com: Customer reviews: Magic in Theory: An ...

Magick theory is merely the accepted term that is used to describe the hypothesis of what magick is and how it works. Normally it is a mixture of science, mathematics, and pseudo-sciences that are used to describe this process, and can include theosophy as well, but does not necessarily require it (such as Chaos Magick Theory).
