In *Mind, Self and Society*, George H. Mead describes how the mind and self of individuals come from the social process. Mead analyzes individual's experiences from the "standpoint of communication as essential to the social order.". According to Mead the "mind" stems from the social process of communication and cannot be understood without that process.

George Herbert Mead is widely recognized as one of the most brilliantly original American pragmatists. Although he had a profound influence on the development of social philosophy, he published no books in his lifetime. This makes the lectures collected in *Mind, Self, and Society* all the more remarkable, as they offer a rare synthesis of his ideas.

Leading scholar Steven Lukes that puts Durkheim's work into context for the twenty-first century reader. The Rules of Sociological Method represents Emile Durkheim's manifesto for sociology. He argues forcefully for the objective, scientific, and methodological underpinnings of sociology as a discipline and establishes guiding principles for future research. The substantial new introduction by leading Durkheim scholar Steven Lukes explains and sets into context Durkheim's arguments. Lukes examines the still-controversial debates about The Rules of Sociological Method's six chapters and explains their relevance to present-day sociology. The edition also includes Durkheim's
