This book explores the politics of artistic creativity, examining how black artists in Africa and the diaspora create art as a procedure of self-making. Essays cross continents to uncover the efflorescence of black culture in national and global contexts and in literature, film, performance, music,

and visual art.

Contributors place the concerns of black artists and their works within national and transnational conversations on anti-black racism, xenophobia, ethnocentrism, migration, resettlement, resistance, and transnational feminisms.

Does art by the

subaltern fulfill the liberatory potential that critics have ascribed to

it? What other

possibilities does

political art offer?

Together, these essays

sort through the

aesthetics of daily life to

build a thesis that

reflects the desire of

black artists and cultures

to remake themselves

and their world.

This book offers a thematic study of key debates in the history of the ethnic politics, democratic governance, and minority rights in Nigeria. Nigeria provides a framework for examining the central paradox in post-colonial nation building projects in Africa – the tension between

majority rule and minority rights. The liberal democratic model on which most African states were founded at independence from colonial rule, and to which they continue to aspire, is founded on majority rule. It is also founded on the protection of the rights of minority groups to

political participation,
social inclusion and
economic resources.

Maintaining this
tenuous balance
between majority rule
and minority rights has,
in the decades since
independence, become
the key national
question in many
African countries,
perhaps none more so
than Nigeria. This

edition explores these issues, focusing on four key themes as they relate to minority rights in Nigeria: ethnic and religious identities, nationalism and federalism, political crises and armed conflicts.

Based upon the

With her award-winning debut novel, *Purple Hibiscus*, Chimamanda Ngozi Adichie was heralded by the *Washington Post Book World* as the “21st century daughter” of Chinua Achebe. Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history:

Biafra's impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade.
