The Wireline Log Quality Control Reference Manual (LQCRM) is the third edition of the log quality control specifications used by Schlumberger. It concisely provides information for the acquisition of high-quality data at the wellsite and its delivery within defined standards. The LQCRM also facilitates the validation of Schlumberger wireline logs at the wellsite or in the office.

An introduction to well intervention

Procedures Manual 1-1 80459H Rev. A / April 1990 Confidential Chapter 1 Review Of Wireline Basics Introduction The “first” log generated from borehole information was recorded in 1869, when Lord Kelvin recorded the temperature of a shallow hole. In 1927, Marcel and Conrad Schlumberger, with Henri Doll, recorded the first electrical resistivity log at Pechelbron, France. Since then, more ...
