---

The Technological Society by Jacques Ellul

Ellul thoroughly shows that much of the difference in ideology between libertarians and socialists becomes largely irrelevant in the technological society (this is not to say that ideology is unimportant, but rather that technique proceeds with the same goals and effects.)

Jacques Ellul - The Technological Society - YouTube

The Technological Society was written in 1954 by French philosopher Jacques Ellul. The book traces humanity 's historical discovery of technology, and how technique has come to dominate every aspect of our lives. Ellul writes in an academic style that is not always very accessible, but often presents his arguments in a wonderfully lucid way.

The Technological Society Summary (8/10) — Unearned Wisdom

More than a dozen essays are collected in the 2013 anthology Jacques Ellul and the Technological Society in the 21st Century, including one in which the philosopher of technology Carl Mitcham sheds light on how The Technological Society became more important in the United States than in France. (Christian sociologists and political activists deserve the credit, Mitcham explains; the former found the book useful for their critique of racism and consumerism, while the latter found it helpful ...

The Technological Society: Jacques Ellul, John Wilkinson ...

Ellul Society Conference has been postponed for 2021, still to take place in Strasbourg, France, June 30 - July 2. In partnership with the Association Internationale Jacques Ellul, the IJES will be helping to sponsor its first European conference at the University of Strasbourg on June 30 - July 2 (Wednesday through Friday). This blended conference in French and English will open up a second call for papers that will extend through October.

What many consider to be Ellul's most important work, *The Technological Society* (1964), was originally published in French as *La Technique: L'enjeu du siècle* (literally, "The Stake of the Century"). In it, Ellul set forth seven characteristics of modern technology that make efficiency a necessity: rationality, artificiality, automatism of technical choice, self-augmentation, monism, universalism, and autonomy. [29]

The Betrayal by Technology A Portrait of Jacques Ellul ...

Whereas the Frankfurt School described the ways in which propaganda and technology have a vertical structure, Ellul anticipated how the hopes of postmodernization in technological spheres would have democratic aims, but would end up undermining them with a hollowing out of society's moral center in the erosive quality of instrumental rationality and a stress on efficiency as a principle. 18 Modern communications emerged in the setting where technical rationalism combined with the ...

Ellul and Weil | | The International Jacques Ellul Society

As insightful and wise today as it was when originally published in France in 1954, Jacques Ellul's *The Technological Society* has become a classic in its field, laying the groundwork for all other studies of technology and society that have followed. Ellul offers a penetrating analysis of our technological civilization, showing how technology - which began innocuously enough as a servant of humankind - threatens to overthrow humanity itself in its ongoing creation of an environment that ...

---

*The Technological Society* by Jacques Ellul | Audiobook ...

" Only two possibilities are left to the individual: either he remains what he was, in which case he becomes more and more unadapted, neurotic, and inefficient, loses his possibilities of subsistence, and is at last tossed on the social rubbish heap, whatever his talents may be; or he adapts himself to the new sociological organism, which becomes his world, and he becomes unable to live except in a mass society. " Jacques Ellul, *The Technological Society*

*The Technological Society* Quotes by Jacques Ellul

As insightful and wise today as it was when originally published in 1954, Jacques Ellul's *The Technological Society* has become a classic in its field, laying the groundwork for all other studies of technology and society that have followed. Ellul offers a penetrating analysis of our technological civilization, showing how technology--which began innocuously enough as a servant of humankind--threatens to overthrow humanity itself in its ongoing creation of an environment that meets its own ends.

---

*The Technological Society* : Jacques Ellul : 9780394703909

Ellul uses a dialectical approach to understanding the technical phenomenon in contemporary societies around the world and its ramification on Man: conceptions of Man's place in Nature, Man's place in Society, and Humanity's relation to Itself.
